The following characters have specialized meaning:

Special Characters	Description
, () [These characters end a text token.
= > < !	These characters end a text token because they signify the start of a field operator. (! is special: != ends a token.)
` @ \Q < { [!	These characters signify the start of a delimited token. These are terminated by the end character associated with the start character.

1 Golf competition between individuals

Francis Scheid

December 1979

Proceedings of the 11th conference on Winter simulation - V

Full text available: pdf(386.75 KB)

Additional Information: full citation, abstract, refere

In almost all golf competition handicapping is used to more or less equalize p that in different types of competition different handicap allowances are neces them extensive simulation, to determine optimum allowances for individual m

2 Community recreation planning by computer simulation: Golf in GPSS

William L. Tullar, Wayne F. Cascio

January 1971

Proceedings of the 1971 26th annual conference

Full text available: pdf(435.58 KB)

Additional Information: full citation, abstract,

This paper deals with the computer simulation of a golf course. Using GPSS, t “ideal” spacing for the tee-off times and minimal waiting time a players on the course. The long range implications of computer simulations of
